

Study materials form 2008

Accountancy Tuition Centre International are specialist International Financial Reporting Standards (IFRS) trainers. They have been delivering programmes on International Accounting Standards since 1996 and are now working with a number of large accountancy practices and multinationals across Europe.

ATC International has prepared a comprehensive set of study material to prepare you for the Diploma in International Financial Reporting. This is the only study material approved by ACCA. It will provide complete coverage of the syllabus, a question bank full of examination standard questions and realistic mock examinations for you to practice.

You can choose to buy the material in hard copy or you can download it straight from ATC International's online learning centre, the Professional Training Club (PTC) and save both money and delivery time.
